

Legiant Desktop is the Windows and Web-based Time and Attendance system designed to meet today's business challenges and anticipate your labor management needs of the future.

Legiant is recognized as innovator of comprehensive Time and Attendance systems. The Legiant Desktop system is in use at over 7,000 leading banks, credit unions, retail, hospitality, extended term healthcare and manufacturing companies nationwide. Our in-depth understanding of the Time and Attendance marketplace allows us to equip your firm with state-of-the-art, cost-effective systems, tailored to your needs.

Legiant Desktop, which assures accurate and timely payroll, is parameter-driven to accommodate your company's existing and future requirements. No other system offers as many features and as much flexibility. Eliminate costly and time-consuming manual timecard calculations.

From Punch to Paycheck. Automatically.

From the moment employees enter time, your system will begin calculating and keeping records of total hours worked, overtime, absenteeism, tardiness, meal/breaks, rotating work schedules, sickness, vacations, holidays, personnel profiles and more. Legiant Desktop interfaces with over 300 different payroll, HR, and ERP systems. This enables your entire payroll to be transmitted to your payroll service or system automatically.

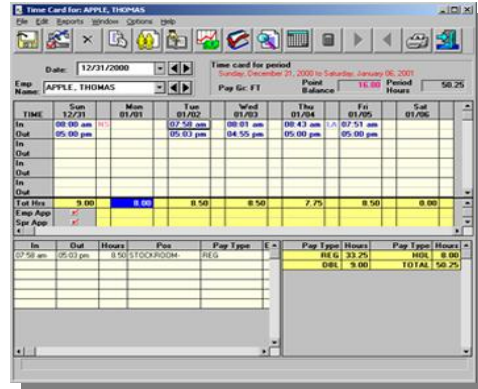

User Friendly System

Legiant Desktop is very easy to use and operate. The simple pull-down menus and comprehensive online help tools allow the user to quickly and efficiently process information. Simply point and click to edit employee punches, view the number of daily and weekly hours worked, or print management reports.

Our task management feature allows Legiant Timecard to do the bulk of your processing unattended. This saves your company time and money by freeing your employees to concentrate on other important assignments.

Employee Timecard

Eliminate costly and time-consuming manual timecard calculations.

Flexible Data Collection

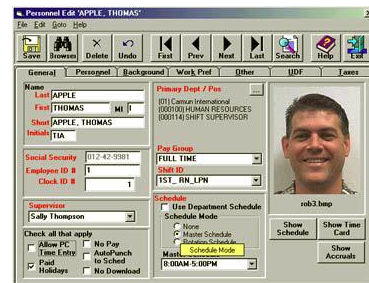

Eliminate costly and time-consuming manual timecard calculations.

Legiant systems can support a wide variety of employee data collection options. Any combination of the following options can be deployed including (from left to right) badge readers, hand or fingerprint readers, web browsers, telephone/cell phone, and PC-based time entry.

Personnel Profile

Maintain and organize up-to-date human resources information.

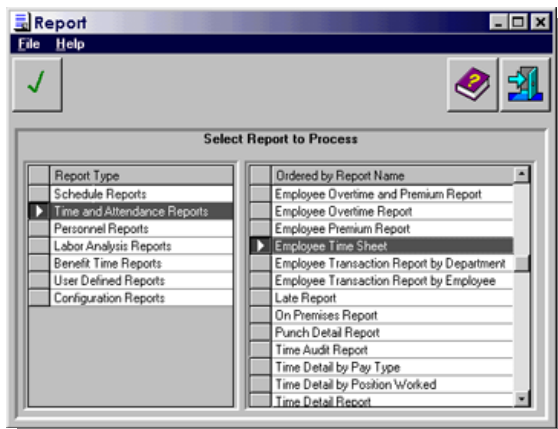

Simplified Scheduling

Create and control individual and department schedules.

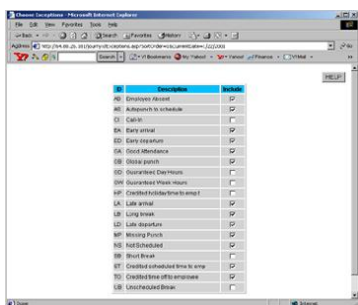

Complete Reporting

Legiant Desktop includes almost 100 embedded Crystal Reports. Custom reports can be written with a full copy of Seagate's Crystal Reports. This can be accomplished by you or the Legiant Professional Services team.

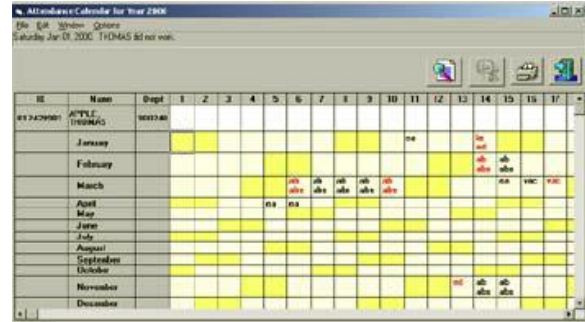

Browse for Exceptions

Quickly locate exceptions such as missing punches and late arrivals.

Attendance Tracking

Readily obtain attendance related information such as late arrivals, early departures, and sick days.

Benefit Hours/Accruals

Track and allocate employee benefit time.

My Accrual Balances:

Accrual Type	Accrued	Available
Personal	16	8
Sick	16	16
Vacation	40	40
